UAE.

five awesome years old
and completed
numerous amazing
projects all across the
region.

worked with some of the
biggest and finest names
in the region and
constantly craving to
boost our portfolio.

#wheelsAHOY

client LIST

#wheelsAHOY

what's the **AHOY** edge?

location sourcing

if the brand is looking to deploy the Unit in a permanent or semi-permanent location, we can refer and connect with landlords for entering into agreement for deployment.

events sourcing

we are in constant lookout for concerts, pop-up events for our clients to participate. Events are a great way to generate revenue, increase brand awareness and interact directly with customers.

staff orientation

we understands that starting a 'Business On Wheels' is entirely different from normal outlets. For new brands, we organise an orientation for the staff and management in order to operate the units successfully.

#wheelsAHOY

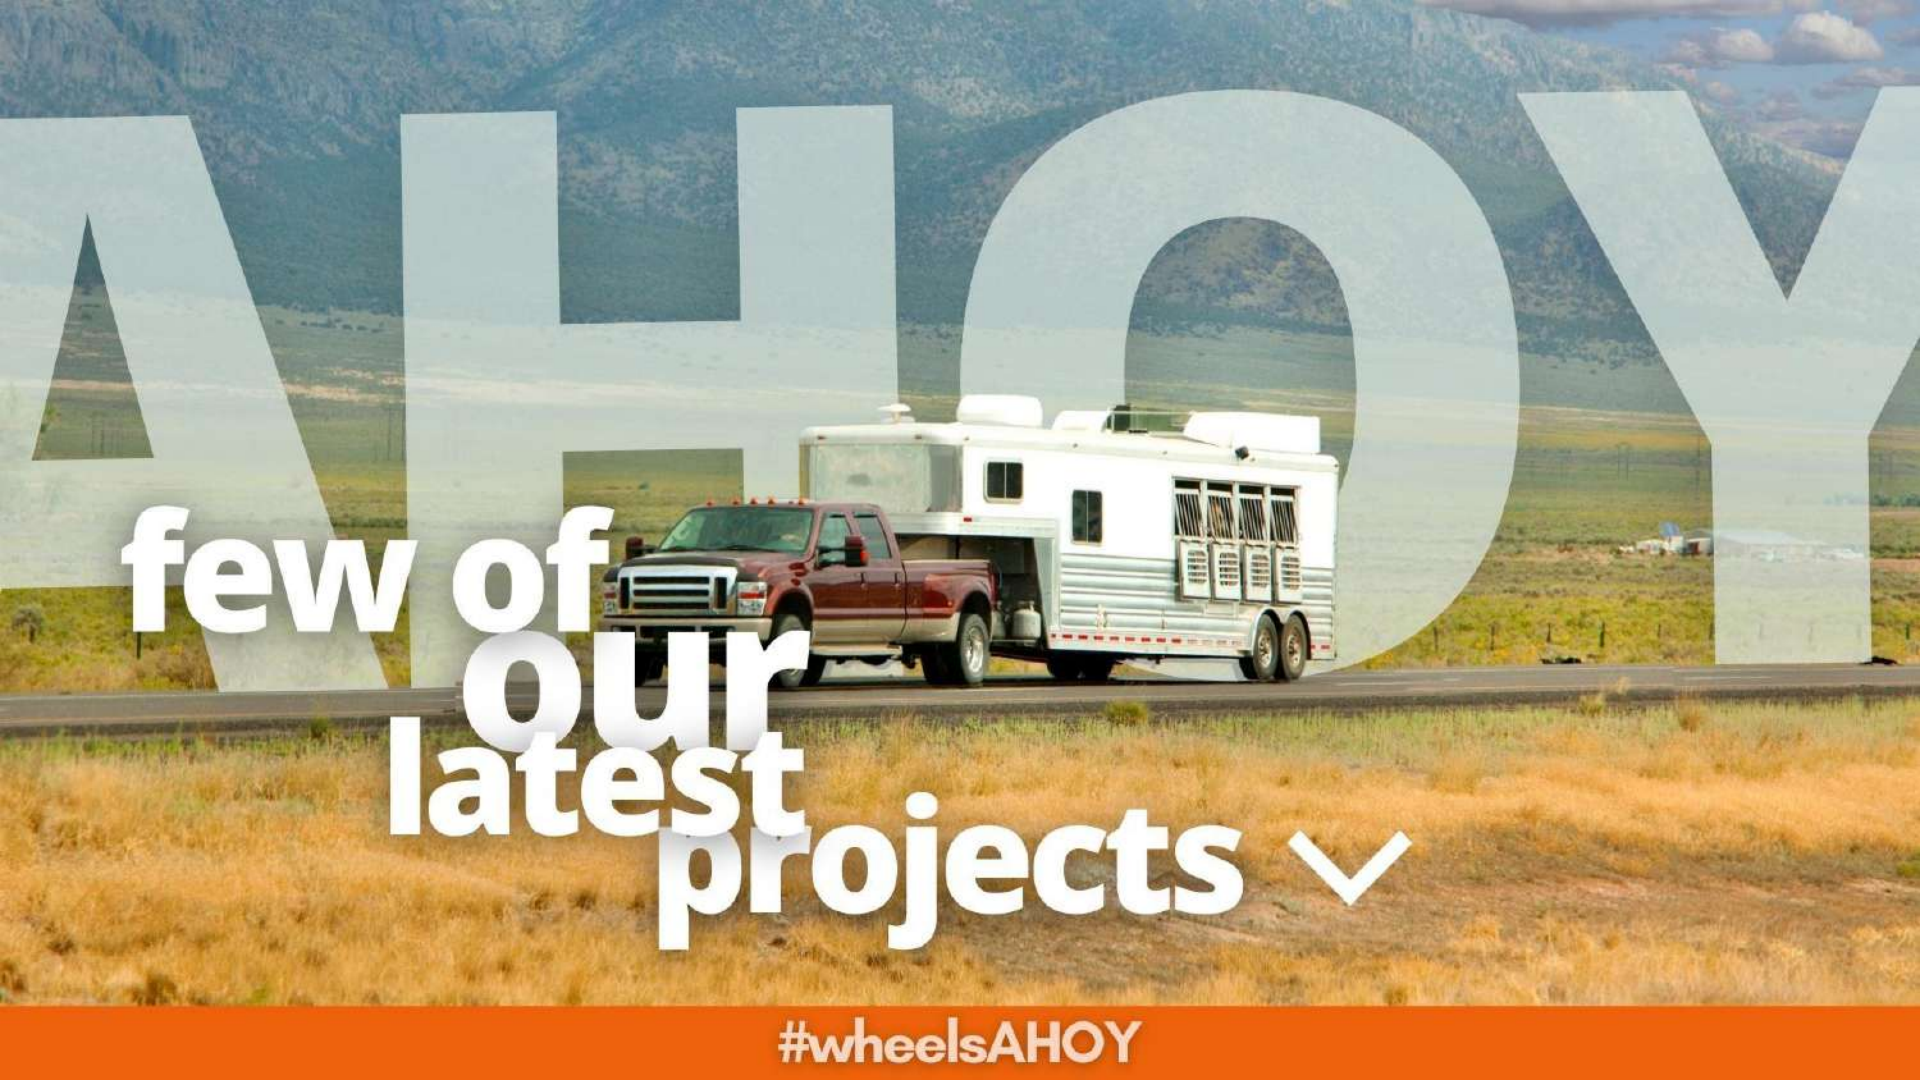

Mobile/modular unit

ADVANTAGES

- Economical compared to traditional fit-out units.
- Fast & easy deployment.
- Increased footfall due to customer curiosity.
- Can experiment with different locations within the premises.
- Can be used for events, expos and concerts.
- Faster Return on Investment.
- Long lasting & sturdy build.
